

Microbes Project

Spring Lake Elementary Honor Roll

Choose a Project focusing on one of the following microbes:

- bacteria
- fungus
- protist
- virus

This can be a presentation, report or experiment demonstrating the traits of the microbe.

Ideas

- written report on a specific microbe (giardia, strep, penicillin, mold etc.)
- experiment on the growth of a microbe – using the scientific process
- visual display of a chosen microbe
- other type of project
